

Appl. No. 09/965,998
Amdt. dated July 27, 2005
Reply to Office action of May 5, 2005

Amendments to the Specification:

Please replace paragraph [0024] with the following amended paragraph:

[0024] Inasmuch as computer system 100 is preferably a server system, in some embodiments, the computer system 100 may not have does not include a dedicated display device. In the embodiments that do include a dedicated display device, if the computer system did have a dedicated display device, such a computer system could be implemented by coupling a video driver card to the host bridge 14 by way of an Advanced Graphics Port bus or other suitable type of bus. Alternatively, the video driver card could couple to the primary expansion bus 18 or one of the secondary expansion buses, for example, the PCI bus 20. If the computer system had a dedicated display device, the video driver or graphic controller would couple to a display device. That display may comprise any suitable electronic display device upon which any image or text can be represented.
